

## FAQ's:

**What kind of editing do you do?** We digitally record the whole performance and tighten up the dead spots. Then, we add the credits from your program, drop in chapter markers for easy access to your favorite scenes, create a menu and professionally author it to DVD.

**Do I need special copyright permission to record a play?** If the show is copyright-free or out of copyright, no permission is necessary. Otherwise, permission must be obtained from the copyright holder to record the performance. When you arrange for your scripts and performance license, ask about "video rights." It is a common request and usually costs very little.

**Do you guarantee the DVD will play on my DVD player?** Your project is duplicated on high quality, highly compatible DVD-R discs for years of enjoyment. If your disc does not play for any reason, please return it for a prompt, free replacement.

**Is there an extra charge for you to place ads on the DVD packaging?** No, not as long as you provide print-ready digital files for us. We take no percentage of your ad sales — any ad revenue you generate is yours to keep.

**Please visit our website for more details, samples and success stories.**

**"The video is wonderful. The quality of the picture and the sound is great. As soon as we set the dates for next year, I'll let you know because we want you to come back!"**  
- Susan Thornton, Middletown High School

Parents and families want **quality video** mementos of their child's **performance**.

You want a headache-free way of providing **videos** while **making money**.

## Digital Bard Video Productions has your solution!

**"I just wanted to thank you for the video you produced... a great memory on DVD at a reasonable cost. The quality was superior to past companies. Thanks for your great work."**

- Renee Marcellino,  
Dance Unlimited

# The live performance is over in a moment— the DVD will last forever!

You've worked so hard on preparing for the live performance, don't let the video be an embarrassment. We haven't seen a "Dad cam" yet that can capture the sights and sounds of a performance like our professional gear and crew can.

Digital Bard Video uses broadcast quality cameras that have excellent low-light pick up, so faces aren't lost on a dark stage and details stay sharp. And to ensure that you aren't distracted by chatty audience members, we tap into the sound board AND set-up our own microphones.

This attention to detail produces a video you are proud to make available to the parents and families of your participants. The high quality DVD is a reflection of your care and commitment to their student's success, and will surely become a treasured keepsake.

You are just  
three easy  
steps away  
from pride  
and profit!

## 1 Choose the production package that is right for you.

The price for the DVD's is all-inclusive. All of our services to you — from taping and editing to duplication and packaging — are covered in our wholesale price of \$24.95 per DVD, subject to the minimums noted below. Any mark-up you apply is your profit.

**Basic: Because small can still be beautiful.** One camera, one operator.

Suitable for very small groups or single subject focus (like a martial arts belt test). Keep it simple with a tasteful, professional approach. Minimum order 25 copies.

**Good: Twice the coverage, twice the fun.** Two cameras, one operator.

Suitable for seated bands, small stages or performances with limited subjects. Focus on soloists but never lose sight of the whole group with this mixture of wide and close-up shots from the same view point. Minimum order 40 copies.

**Better: Our most popular package.**

Two cameras, two operators.

Suitable for medium stages, plays and small bands. Capture two unique angles on the show so you never miss the action. A versatile solution for many groups. Minimum order 55 copies.

**Best: When you want to feel like a movie star.** Three cameras, three operators.

Suitable for large plays, wide stages or lots of movement. Experience your performance like it was shot for TV. Each camera provides a different view — wide, medium and close-up — to precisely follow the action, story and characters. Minimum order 70 copies.

## 2 Provide your sponsors with another avenue for advertising.

Ads that appear on the DVD packaging will never wind up in the recycling bin. You can offer your sponsors a chance to upgrade to premium placement on a customized DVD sleeve and standard movie-style case. It's just as easy as selling ads for your program, and it's one more way for your group to make money.

## 3 Take orders from parents and families.

Digital Bard Video will provide you with a customizable order form, or you can create your own. Our cost to you is \$24.95 per DVD. Add a small mark-up for your organization and let the fund raising begin. Typically, we see a price of \$30 per copy, but that is entirely up to you.

You let us know how many copies you need and we'll take care of the production details. The completed DVD's are delivered to you to distribute to your happy customers.
